Find your next course

For pharmacists, pharmacy technicians, GPs, GP registrars and nurses.
Choose practical skills, specialist updates or Pharmacy First learning.

Clinical Assessment & Consultation Skills

Refine clinical examination and consultation skills with GP faculty. Small-group practice, personal feedback and skills records support reflection and development across the primary care team.

In person

£499

per delegate

Dermatology in Practice

Work through skin presentations, diagnostic reasoning, treatment and referral with a consultant dermatologist. Relevant to everyday general practice, specialist-interest development and GPwER portfolio reflection.

In person

£250

per delegate

Women's Health

Explore menopause assessment, treatment decisions and complex cases with a BMS-accredited specialist. Strengthen shared decisions, individualised care and ongoing reviews across general practice and primary care.

In person

£250

per delegate

Obesity, Testosterone & Men's Health

Connect obesity, metabolic health and testosterone assessment through consultant-led cases. Develop your approach to investigations, prescribing discussions and long-term follow-up for patients seen in primary care.

In person

£499

per delegate

Pharmacy First Essentials

Build your team's Pharmacy First capability. Designed for pharmacists and pharmacy technicians, this practical course develops examination, consultation and safety-netting skills relevant to each professional's role.

In person

£250

per delegate

Pharmacy First Prescriber Ready

Build confidence in the five Pharmacy First prescriber-led pathways. Apply learning through clinical cases, consultation practice and shared decisions, with recordings and a toolkit to support continued learning.

Live online

£199

per delegate

Choose a course. Explore the dates. Book your place.

Plus year-round Academy learning and our two-volume workbook bundle.

Clinical Assessment & Consultation Skills Competency Programme

WHY YOU SHOULD ATTEND?

- A full practical day covering respiratory, ENT, cardiovascular, MSK, abdominal assessment and consultation skills.
- Receive individual faculty feedback, appropriate DOPS-style observation records and a signed Clinical Skills Competency Record.
- Workbook to take home
- Keep learning with our e-learning modules
- CliniLink Academy access included

Dr Zubair Ahmad

Programme Lead

REGISTER TODAY — **www.clinilink.co.uk/upcoming-events**

Open to all healthcare professionals

For pharmacists, pharmacy technicians, GPs, GP registrars and nurses.

What you will cover

Respiratory assessment
Practise respiratory examination and clinical assessment.

ENT examination
Build practical ear, nose and throat examination skills.

Why CliniLink?

GP and consultant-led teaching.
Practical learning for the whole primary care team.

Accredited provider

CliniLink is an Approved Provider with The CPD Group, provider number 790085.

Rooted in clinical practice

Founded by pharmacists Mehmoona Usman and Theresa Ho, with learning shaped around clinical practice.

Specialist clinical faculty

Learn with GP trainers and consultants. Professor Ahmet Fuat is CliniLink's National Programme Director.

Evidence into practice

Mehmoona Usman sits on the NICE guideline committee for Headaches in over 12s: diagnosis and management.

For employers, PCNs and training hubs

Develop your team.
Extend your clinical capacity.

Plan shared learning for pharmacists, pharmacy technicians, GPs, GP registrars and nurses. Choose courses around your patients, service priorities and each colleague's role.

Build specialist services
Support assessment, consultation and follow-up skills for existing services or plans for private clinics.

Make better use of team skills
Develop technicians and colleagues for role-appropriate responsibilities, creating more time for clinical care.

Discuss group bookings and team development

admin@clinilink.co.uk

CliniLink Academy

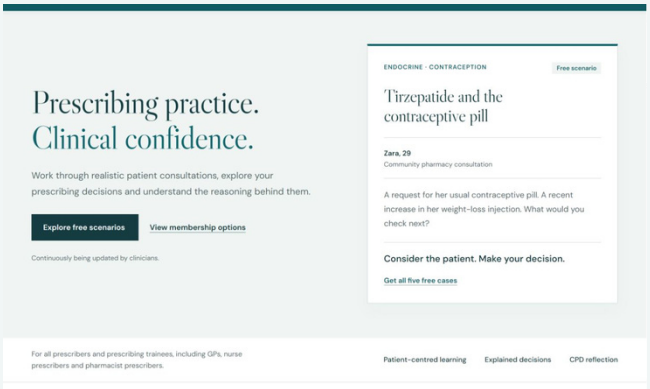
Keep learning. Keep progressing.

For pharmacists, pharmacy technicians, GPs, GP registrars and nurses.

Make time for your clinical development.

Revisit expert teaching, work through clinical decisions and record the learning that matters to your practice.

Explore real clinical scenarios online



Academy Membership

£99 per year

Build a regular learning habit.

Recorded clinical webinars
CPD entries and reflection
Resources and reference guides

Academy All Access

£199 per year

Everything in Membership, plus:

Weekly Clinical Focus updates
125 prescribing cases across 13 topics
Pharmacy First Mastery: all 7 pathways
Vitamin B12 Maintenance learning
Implementation tools and modules

Annual subscriptions renew unless cancelled. Access continues while membership is active.

Course delegates receive 12 months of Academy access, including pre- and post-workshop learning. Membership and All Access give year-round access to the wider Academy.
